

REQUIREMENTS FOR DAYCARE & BOARDING

- All Dog(s) must be spayed/neutered between the age of 6-8 months. This policy will also be assessed on an individual basis per dog due to the individual personalities of every dog differing.
- All Dog(s) must be up to date with their vaccinations. We require Rabies, Distemper/Parvo and Bordetella. Unlike many facilities around the Charleston area, we will honor the vets recommendation for your Bordetella vaccination.

** You may have your Veterinarian email us your records at barkparkchs@gmail.com or Fax your records at 855-371-2086

- All Dog(s) must be able to socialize and play well in group settings with no issues.
- All Dog(s) must not be aggressive towards staff members. Being unsure and nervous in a new setting is common and expected with any new dogs and we will do our absolute best to ease your dog(s) uncertainty but if you know that they've displayed fear based aggression then please communicate this with staffing before proceeding with scheduling an assessment.
- Your Dog(s) must pass an initial assessment. This "Trial Day" is free of cost to you for up to 5 hours. Once you exceed a 5 hour period, the cost will be \$12.50.
